

## POC21 | Proof Of Concept 21

open sourcing sustainability

**FROM PROTEST  
TO PROTOTYPES**

## Piggott Wind Turbine

For personal or small community  
use, created by Hugh Piggott.

image by Hugh Piggott

## **Valldaura Green Fab Lab**

Mushrooms take the shape of structures modeled in reclaimed cardboard and harden into resilient building.

image by Quentin Chevrier - MAKERY

Wikihouse

Print your own high-performance, low-energy house.

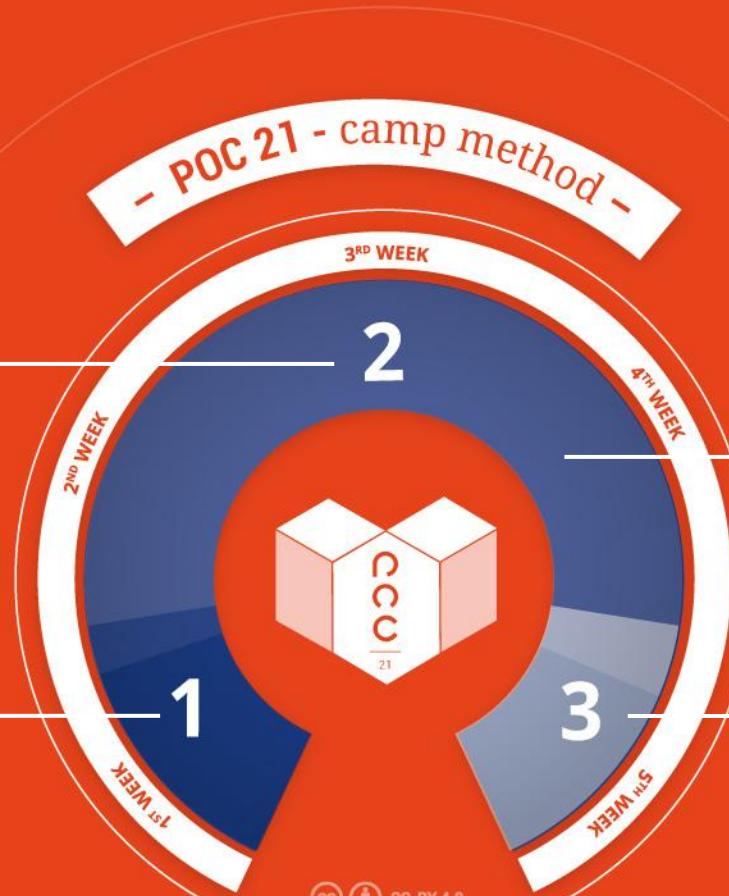

**5 WEEKS  
12 PROJECTS  
100 PARTICIPANTS**

## WEEK 2-4: DEEP DIVE

intense prototyping work with a structured creative process (see on the right) and a fully equipped location (machines, tools, materials, coaches, ...)

## WEEK 1: OPENING

team building , inspiration, planning, envisioning and fine-tuning the concepts, first iteration on existing prototypes

- worksessions / prototyping
- p2p learning between projects
- coaching by external mentors
- inspirational keynotes
- daily and weekly work retrospective to identify gaps
- “reality check” with a few users coming to the Camp

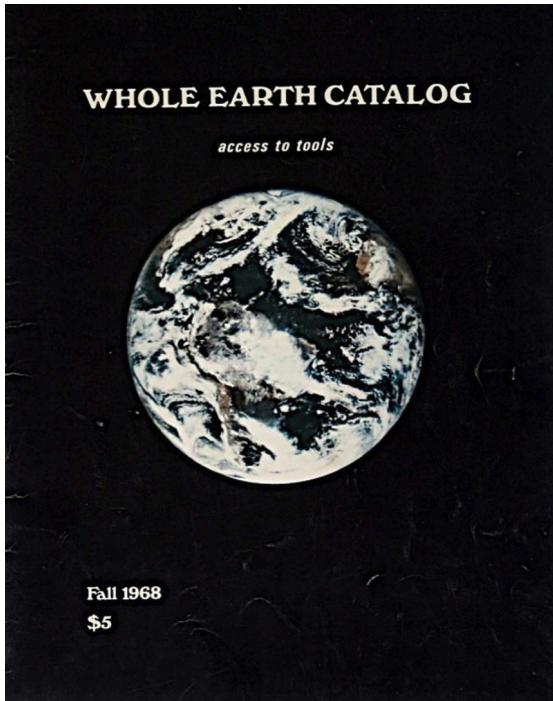

## FACILITATION FORMATS

## WEEK 5: WRAP-UP

prototypes finalization, storytelling, celebration during closing conference/exhibition

# A CATALOG FOR OPEN SOURCE SUSTAINABILITY

---

# How to help:

- Call for Team & Tools
- Crowdfunding in June
- Spread the Word!

## STAY IN TOUCH!
